

8/14/67

Dear Dick,

A hurried note to you thanks for yours of 8/11 with exciting enclosure. If you ever do the fall thing, I'd like it.

It looks like an important thing and a good, readily comprehensible presentation.

I particularly welcome such rapid confirmation of the Black Star suspicion. These wretched people, even if they were not sinister about all of it, their methods are so transparent they invite cynicism and suspicion. I doubt if history will credit them with better.

Did you find the Lovelady shirt in the public DCA footage or in a non-published part of Martin?

I'll read it carefully when I can. I am very glad to get it.

Keep it up!

Sincerely,

Harold Weisberg
